### The KNX-system: Energy Efficiency & Climate Protection

KNX Association is looking for presentations on new and exciting KNX system innovations.

Do not miss this occasion to present your newest developments to other partners and to the KNX members. This may take the form of a presentation and/or by means of a small demonstration panel.

Presentations are accepted from members of our industry, universities and/or technical institutes.

A CD-ROM containing all conference papers will be made available at the Conference and offered for download on the KNX website.

Prospective authors should submit an abstract in English of about one page by the **31<sup>st</sup> July 2010**. Contributions should present recent research and applications focusing on - but not restricted to - the following topics:

- KNX for high energy efficiency
- Climate protection with KNX
- Use of KNX for disabled persons
- KNX and security
- KNX and multimedia
- KNX and metering
- KNX and XML
- Further KNXnet/IP innovations
- New KNX fields of application
- KNX PC Tool evolutions
- New KNX products
- KNX Radio Frequency
- .....

The final paper must be written in English.
